

Preface

This course was developed to instruct Federal Employees responsible for overseeing M&O Contractor operations in the fundamentals of proper Conduct of Operations. In addition, this course is intended to assist Federal Employees identified for the Technical Qualification Program in completing the Conduct of Operations portions of assigned qualification standard requirements. This course satisfies the training requirements for the following Technical Qualification Program competencies:

- Competency 6.1 of the General Technical Base Qualification Standard: Personnel shall demonstrate knowledge of the principles of Conduct of Operations and relate these principles to an operational environment.
- Competency 1.1 of the Technical Manager Qualification Standard: Demonstrate working level knowledge of DOE 5480.19, Conduct of Operations Requirements for DOE Facilities, necessary to ensure implementation.
- Competency 2.9 of the Radiation Protection Qualification Standard: Demonstrate familiarity level of knowledge of the guidance provided in DOE 5480.19, Conduct of Operations Requirements for DOE Facilities, as related to the oversight of site/facility conduct of radiological work activities.
